

St. Alexander School Fire Prevention Week 2008

St. Alexander School held Fire Prevention Week from September 29 through October 3rd. During that week, lessons focused on Fire Safety. The Junior High students competed in an essay contest, citing what they learned from fire safety materials provided by the Palos Heights Fire Protection District. The Primary and Intermediate students enjoyed a presentation from the Palos Heights Fire Department that included a fire safety talk, roll play and a fire safety movie. They took part in a Poster Contest to showcase their knowledge of fire safety. There was a winner in each room for each of the respective contests. Winners were presented a letter to appear at the Palos Heights Fire Protection District Open House to receive a plaque and have their picture taken for the local news paper.

Pictured above are the Junior High essay winners.
