

Our Philosophy

The St. Alexander Preschool provides an academic experience aligned with The National Association of The Education of Young Children and The Office of Catholic Schools Early Childhood Department. Young children learn best through manipulation of materials and hands-on experiences. Faith lessons are incorporated using the Pflaum Seeds Program. Early Literacy is introduced using the High Scope Reading Program.

Why choose St. Al's Preschool?

"We are grateful to be active family members at St. Alexander School. The preschool program at St. Al's offers our children a faith-based education at a young age. The overall education provides many different dynamics in the learning environment. They include discipline, respect, social opportunities, and academic excellence. As parents, we have made the right choice for our children."
